

CALL FOR PAPERS

Manufacturing, Tolerancing, and Testing of Optical Systems (MOS)

MUNICH ICM
International Congress Centre
Munich, Germany

June 24 - 26, 2019

Synopsis

The conference on Manufacturing, Tolerancing and Testing of Optical Systems will highlight significant technology trends, emerging technologies and associated prospective developments in the field of optics fabrication and testing. This conference provides a forum for all aspects of optics fabrication, tolerancing, and testing, ranging from micro to large-scale optics and from high value one-off to mass-produced components including lessons learned papers on special manufacturing issues such as polishing process stability and finishing processes for high-end optics, optics featuring clear apertures below 1 mm or above 100 mm in diameter. One main goal of the meeting is to provide a better link between the design, the manufacturing, and the characterization of optical components and systems. For the second time, there will be a reviewed industrial poster session displayed during the whole conference with companies presenting their key technology competences.

Abstract Submission: January 10 - March 21, 2019

Abstracts should be submitted online via Conftool: <https://www.conftool.com/wpc2019>

Authors are requested to submit an abstract of two pages. The abstract must be formatted according to the EOS abstract guidelines: <https://www.europeanoptics.org/pages/events/submission-guide.html>

Contributions will be accepted for **oral** and **poster** presentations. Please indicate your preference. At least one author of an accepted contribution is asked to register in advance, separately from abstract submission.

For Manufacturing of Optical Systems, **industrial posters** are also welcome. (Read more on the event website)

Paper Publication in JEOS:RP

Presenters at EOS Optical Technologies are kindly invited to consider the submission of a manuscript about their research to the EOS open-access on-line journal JEOS: RP (Journal of the European Optical Society, Rapid Publications).

World of Photonics Congress 2019

The EOS Conferences on Optical Technologies will be taking place under the umbrella of the World of Photonics Congress (23-27 June 2019), the leading international congress for optical technologies in Europe and one of the top 3 congresses of its kind worldwide. It is organised by Messe München International and held in conjunction with LASER World of PHOTONICS (24-27 June 2019), the international trade fair for optical technologies including components, systems and applications, so there is an intense exchange between the scientific and industrial sectors. Venue

ICM - International Congress Centre Munich
Messegelände, 81823 München, DE

The International Congress Centre Munich (ICM) is integrated into the Munich Trade Fair Centre and is one of the most modern congress centres in the world. It can easily be reached by public transport.

Registration

Pre-registration begins March 2, 2019.

The registration for EOS Optical Technologies conferences includes admission to all conferences at the World of Photonics Congress as well as to the LASER World of Photonics trade fair. At least one author of an accepted contribution is required to register in advance to the conference with the European Optical Society.

Registration fees

	Early Bird*		Regular/ Onsite	
	Excl. VAT (24%)	Incl. VAT (24%)	Excl. VAT (24%)	Incl. VAT (24%)
Full member ³⁾	EUR 451,60	EUR 560	EUR 524,20	EUR 650
Non member	EUR 556,45	EUR 690	EUR 629,00	EUR 780
Student member ³⁾	EUR 161,30	EUR 200	EUR 201,60	EUR 250
Student non member	EUR 201,60	EUR 250	EUR 225,80	EUR 280
One Day	EUR 205,65	EUR 255	EUR 258,00	EUR 320

The Early Bird ends Friday, May 31, 2019, midnight 00:00 CET

- VAT 24% is excluded for Non-EU companies, EU companies and businesses (except Finland) with VAT number
- If you are entitled to VAT excluded price at the registration phase, you are required to either announce the VAT number or your nationality (if outside EU) while registering.
- VAT 24% is added to private persons, as well as companies and businesses in Finland with VAT number, according to the Finnish VAT act §69H.

**SUBMIT BY
21 March 2019**

[www.conftool.com/
wpc2019](http://www.conftool.com/wpc2019)

The congress ticket includes:

- Access to the EOS Optical Technologies conferences and other societies' conferences organized at the World of Photonics Congress 2019
- Conference Proceedings of EOS Optical Technologies conferences published in the [Web of Conferences](#) (indexed)
- Printed program of the EOS Optical Technologies conferences
- Entrance free of charge to the LASER World of PHOTONICS, the World's Leading Trade Fair for Photonics Components, Systems and Applications
- The forum program in the exhibition halls (Application Panels, exhibitor presentations)

The congress ticket does not include public transportation services. Please remember that you need a separate MVV ticket for using public transport.
