WHY PUBLISH WITH *JEOS-RP*?

- Learned society journal
- Open access
- Fast publication times – articles are published online within 3 days of acceptance
- Fair APCs
- High quality through rigorous peer review

the instructions for authors or submit

JEOS-RP

Editors-in-Chief: Silvia Soria

Co-editors: Riad Haidar, Gerd Leuchs

Prompt, scientific, high-quality communications reporting the latest findings in optics and photonics including emerging technologies and strategic goals.

JEOS-Rapid Publications covers both fundamental and applied topics, including:

- Classical and quantum optics
- Light/matter interaction
- Optical communication
- Micro- and nanooptics
- Nonlinear optical phenomena
- Optical materials
- Optical metrology
- Optical spectroscopy
- Colour research
- Nano and metamaterials
- Modern photonics technology
- Optical engineering, design and instrumentation
- Optical applications in biophysics and medicine
- Interdisciplinary fields using photonics, such as in energy, climate change and cultural heritage

Stay up to date with the latest research...
